Systems Vision Science
Summer School and Symposium 2025

August 11 – 22, 2025 | Tübingen, Germany

Neurons & Brain Circuits

Theory & Models

Perception & Action
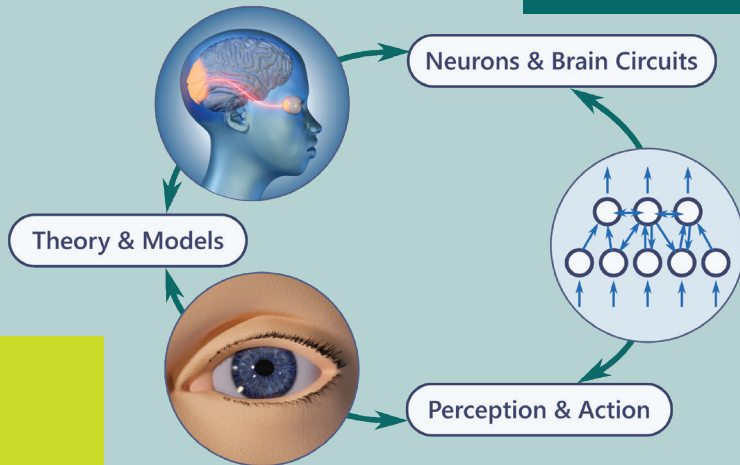

Apply before
March 31, 2025

(before April 30, 2025 for submitting symposium contributions)

What to expect?

Come to the Systems Vision Science Summer School to learn a systems level approach to understanding vision which combines data with theory and models. We will deliver a coherent course syllabus in a summer school format, featuring lectures, exercises, discussions, and, at the end of the summer school, a symposium on frontier topics.

Host: Max Planck Institute
for Biological Cybernetics, Tübingen

Invited lecturers and speakers include

Marco Bertamini, David Brainard, Peter Dayan, Andrea van Doorn, Roland Fleming, Pascal Fries, Wilson Geisler, Robbe Goris, Sheng He, Tadashi Isa, Tomas Knapen, Jan Koenderink, Keith May, Laurence Maloney, Marcello Rosa, Jonathan Victor, Li Zhaoping.
